The Grove Studios is an internationally renowned music writing, recording, mixing and mastering facility, 55 minutes north of the Sydney CBD.

Surrounded by pristine forests that enhance the 5 star recording facilities and accommodation, The Grove is one of Australia's leading creative hubs for artists and musicians to create singles, albums or simply experiment with new artistic projects.

The Grove Studios was designed and built on 25 acres by Garry Gary Beers from the legendary band INXS, and has historically been the home for the creation of many of Australia's favourite musical endeavours from Silverchair to Casey Chambers to Eskimo Joe.

The Grove offers four specialized recording studios, designed to suit all levels of music production and budgets.
